MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:20,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service
Web Soil Survey URL:
Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: Miller and Seminole Counties, Georgia
Survey Area Data: Version 17, Sep 8, 2021

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

Date(s) aerial images were photographed: Mar 13, 2022—Mar 22, 2022

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

Map Unit Legend

Map Unit Symbol	Map Unit Name	Acres in AOI	Percent of AOI
GmA	Goldsboro sandy loam, 0 to 2 percent slopes	0.4	0.9%
Grd	Grady soils	4.0	7.9%
NhA	Norfolk loamy sand, 0 to 2 percent slopes	15.5	30.5%
NhB	Norfolk loamy sand, 2 to 5 percent slopes	16.8	33.1%
Oh	Ocilla loamy sand, 0 to 2 percent slopes	13.7	27.0%
WeB	Wagram loamy sand, 0 to 5 percent slopes	0.3	0.6%
Totals for Area of Interest		50.7	100.0%
